WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

Iman Ammunition Depot Vedenka Southeast PUG is located 22 kilometers (km) southeast of Iman (Figure 1).

The depot covers approximately 100 acres and contains a secured ammunition storage area with 28 buildings and a support area with 20

buildings (Figures 2 and 3).

KEYHOLE photography from [REDACTED] reveals no significant change in facilities. No activity is discernible on winter coverage.

25X1D

DESCRIPTION OF INSTALLATION

Road Service

A hard-surfaced all-weather road provides access to Iman.

These buildings are situated in a wooded area, and are surrounded by a firebreak and at least 1 fence.

Aircraft Landing Strips

The Vedenka Airfield is approximately 10 km west of the ammunition storage depot.

Other Buildings

The support area (II) contains 20 buildings. The quality of this photography precludes a detailed analysis of these buildings. The absence of activity on winter coverage lessens the possibility of extensive billeting in this area.

Ammunition Storage Area

The ammunition storage area (I) contains 25 storage buildings and 3 support buildings.
